Your Results

The WHS Diagnostic Assessment evaluates your business' WHS performance. Based on the responses you provided in your visit with our WHS Consultant, it provides an objective snapshot of how your business is currently performing and can also help with plans and adjustments for the future.

We trust it provides meaningful and relevant feedback for you and your business.

The WHS Diagnostic Assessment assesses your business through:

- Your answers to questions in your visit from our WHS Consultant.
- Scores from your answers are then combined into sections, and then a score is given for each section.
- The scores from each section are combined to produce your **overall score**, as reported in the Executive Summary.

Your WHS Diagnostic Assessment results provide important feedback to you, helping you to lay the foundation for the ongoing management of safety in your business.

Use this report to begin prioritising and developing an action plan.

The results below show how your business performed in each of the **WHS Diagnostic Assessment** areas.

Overall Score

Your Rating: **Good**

Congratulations, you have received a Good rating. This indicates that your business is performing adequately in most areas. There may still be some areas requiring your attention in order to be regarded as an excellent business.

To continue your path towards excellence, it is important that you embark on a continuous improvement program to ensure a safer workplace.

Use this report as a guide to help you prioritise the areas of most concern to you.

Important disclaimer:

The assessment and any findings, observations, advices and recommendations contained in this report have been based upon and prepared solely pursuant to the information supplied by the organisation named in this report to NSW Business Chamber, its officers, employees and agents.

These findings, advice and recommendations contained in the report have been prepared solely and exclusively for the use and information of the organisation named in this report.

NSW Business Chamber, its officers, employees and agents have used their best endeavours in the preparation of the report and are not liable or responsible in any way for the results of any action or failure to act by the organisation named in this report arising from the findings, advices and recommendations contained in this report.
